

Commitment Statement B Corp

June 14th 2023

We are pleased to announce that i-team Global, under the leadership of our founder and CEO, Frank van de Ven, has made a resolute commitment to becoming a Certified B Corporation (B Corp). As of June 14, 2023, we have formally submitted our application for evaluation and eagerly anticipate the outcome.

B Corps represent a global community of enterprises that leverage their influence and practices to address pressing global challenges. The certification process scrutinizes various facets of a company's impact, including governance, transparency, social and environmental performance, and legal accountability.

By pursuing B Corp certification, we publicly commit to upholding the highest standards of social and environmental performance, transparency, and accountability. This decision, fully aligned with our core values, will steer our business practices toward responsible and sustainable outcomes.

In addition to submitting our B Corp application, we have proactively updated our company statutes to reflect our commitment to operating as a mission-driven enterprise. These revisions solidify our dedication to evaluating the consequences of our actions on all stakeholders and legally embed our company's purpose within our governance framework.

We eagerly anticipate sharing our progress as we embark on this momentous journey. Through our commitment to becoming a B Corp, we aim to inspire other businesses within our industry and beyond to join us in pursuing sustainable and responsible practices.

Together, let us shape a more sustainable and inclusive world.
